

IN THE SPECIFICATION

Please amend the original Specification with the Substitution Specification enclosed herewith. A mark up version and a clean version are listed appended, where those cancelled are deleted by cross lines and those amended are indicated by underlines. The Substitute Specification was necessitated due to an error suggested in the office action. That is "wet-proof" (it is now amended as "water-proof") This is kindly noted by the Examiner. The Substitute Specification is inserted for purpose of clarity and ease of understanding by the Examiner. From the mark-up version appended, it is appreciated that no new matter has been incorporated therein.
